

KB COMPACTOR C-500

PAPER COMPACTOR
OPTION ON KB CYCLONE

Compactable material: Paper

Compacting force: 40 KN

Voltage: 380/400V 3 phases+neutral

Power: 2,2 KW

Dimensions (WxDxH): 100 x 60 x 148 cm

Weight: 220 Kg

Packaging: 1 unit placed in a box on 1 pallet

Datasheet n.140 rev.1

**Capacity varies based on supply power, weight, quality and grain of paper, operating temperature.*

Certifications:

CB CE

MAIN FEATURES

Designed to work with Cyclone when paper is being shredded: KB Compactor C-500 compresses and reduce the volume of the shredded paper by 4-5 times to minimize the space required for disposal.

Compacting paper increases security of one level (ISO/IEC 21964).

- Easy to install and to operate
- Makes recycling of shredded paper easy
- Compacted shredded paper can be collected into plastic waste bag or in any type of container
- Reduce dust, compacting it together with shredded paper
- Does not require maintenance
- It works with any Cyclone security level screen, including high security level 006
- Powerful high efficiency motor: maximum electrical saving per year
- Mounted on casters

CONSUMABLE MATERIALS:

- 400 litre **plastic waste bags** (10 pcs, art. code 51.221)
- **Sleeve junction** Cyclone-Compactor, 50 pcs/box (art. code 51.230).

**INNOVATIVE SHREDDING SYSTEM
BASED ON A TURBINE COMBINED WITH
HIGH SPEED ROTATING BLADES.**

Easy to use: just press the start button, throw the paper (up to 500 sheets of paper at a time) into the large entry opening and leave. KB CYCLONE + COMPACTOR C-500 will automatically shred and compress it.

**SPECIAL ACCESSORY: COMPACTOR
C-500 REDUCES BY 4-5 TIMES THE
VOLUME OF THE SHREDDED PAPER.**

Easy to install and operate, it works with any Cyclone security level screen. Shredded and compacted paper can be collected into any type of container or into plastic waste bags. **Compacting paper increases security of one level (ISO/IEC 21964).**
